MEMORANDUM FOR: Director of Central Intelligence

FROM : SA/IA

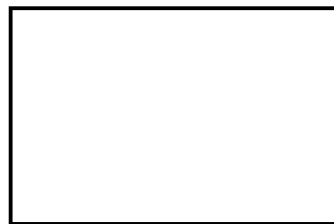

SUBJECT : Congressional Worldwide Briefing, 27 January 1982

1. I obtained from Betty this morning a copy of your latest draft testimony for tomorrow's worldwide briefing. I passed copies on to Admiral Inman, Harry Rowen, John McMahon, and Bob Gates inviting any comments or suggestions they might have.

2. We have scheduled a pre-brief meeting this afternoon at 3:00. Harry Rowen would like to have all of your backup people there as well as the vu-graphs to make sure that we are on the same wavelength. I suspect that if there are any suggestions for modification or changes to your testimony they will come up at that meeting. I have asked Harry also to provide a complete set of the backup papers to be used by the various people accompanying you. We will also be prepared to go through their backup vu-graphs should you wish to see them prior to tomorrow's testimony.

3. I am planning on accompanying you tomorrow, and Dick Lehman has asked that I run the vu-graph machine for the backup presenters. Please let me know if that is acceptable to you.

4. I have gone through your testimony very quickly and it seems to hang together pretty well. You touch upon those areas which I believe are most important for you and certainly your backup briefers can fill in the details in any of the areas desired by the Committee.
